TECHNICAL SKILLS

- **Languages:** Java, Python, HTML, CSS, JavaScript
 - **Frameworks & Libraries:** Node.js, EJS, Bootstrap, Java Swing, Vite
 - **Databases:** MongoDB, Firebase, MySQL
 - **Tools:** Git, GitHub, Figma, Trello, FigJam
 - **APIs & Technologies:** REST APIs, Google Gemini API, Groq API, Ollama, MapLibre
-

TECHNICAL PROJECTS

StudySpark AI | Personal Project Jun - Aug 2026

- Developed a full-stack AI quiz generator web application using Node.js, MongoDB, and Google Gemini API to generate quizzes from user-input topics or attached files.
- Implemented dynamic quiz generation, scoring, and result display using backend API integration for real-time interaction.

VanCooler | BCIT COMP-2800 Project Apr - May 2026

- Developed a web application in a 5-person team using EJS, CSS, JavaScript, Bootstrap, MongoDB, and multiple APIs to help users find activities and shaded locations during hot weather.
- Integrated Groq AI, MapLibre, Ticketmaster, and Weather APIs to provide AI assistance, interactive maps, event information, and real-time weather updates.
- Built a responsive map interface for desktop and mobile devices, improving usability and accessibility.

Offline AI Assistant | HackTheBreak 2026 Hackathon Project Mar 2026

- Developed an offline AI assistant in a 2-person team using Java, Java Swing, and Ollama to provide private, low-latency AI responses without internet dependency.
- Designed the Java Swing interface and implemented core features, including input handling, response generation, and local LLM integration via Ollama for real-time conversational AI.

VanGoal | BCIT COMP-1800 Project Jan - Apr 2026

- Developed a web application in a 3-person team using HTML, CSS, JavaScript, Vite, Firebase, and Bootstrap to help tourists visiting Vancouver access FIFA match information and navigation tools.
 - Implemented match calendar and save-match functionality using Firebase, enabling users to track selected FIFA matches.
 - Built dynamic dashboard cards to display team information based on user-selected matches and improved UI components to enhance usability.
-

WORK EXPERIENCE

Cashier | T&T Supermarket | Burnaby, BC Jun 2026 - Present

- Assisted customers with inquiries and transactions using strong communication and problem-solving skills, improving customer satisfaction.
- Managed cash and electronic payments with attention to detail in a fast-paced environment, ensuring accurate transactions and building responsibility.

Student Librarian | Heuristic Halo English Learning Centre | Mandalay, Myanmar Sep - Dec 2025

- Assisted patrons in locating books and resources, improving customer service and communication.
- Managed check-in/check-out of materials using library systems with attention to detail and data accuracy.

Student Tutor | Self-Employed | Mandalay, Myanmar Aug - Oct 2025

- Tutored students in mathematics and programming using communication and problem-solving skills to improve understanding.
 - Assisted students with assignments and exam preparation, providing individualized academic support.
-

EDUCATION

British Columbia Institute of Technology

Computer Systems Technology Diploma | CGPA: 90%
